work gets you where you want to be. Take the path less traveled, on- or off-road. Power through every job, big or small. Open up to more possibilities and more crew. Stop. Back it up. Take a look at what's directly behind you, hitch up your weekend toys and go. The 2016 Nissan Frontier.® Toughness for the work site, capability for time off well Nissan Frontier® SL Crew Cab shown in Gun Metallic with optional equipment

CAPABILITY IS IN YOUR CORNER.

Power – either you've got it, or you don't. And with Frontier,® you've got it in a big way. With an available 4.0-litre V6 engine packing 261 horsepower, this powerful V6 is raring to go. And with a massive, best-in-class 281 lb-ft of torque, you can tow or haul just about anything you need to bring along.2 Maybe it's because we're a company that loves to compete - off-road, on the racetrack, even in the showroom. But wherever we win, we're happy to share the prize with you.

HORSEPOWER

LB-FT OF TORQUE

LBS (2948 KG) MAX TOWING²

V6 power. The available 24-valve 4.0-L V6 works its magic with advanced technology, including a lightweight aluminum engine block, advanced valve timing system, variable intake and race-bred friction-reducing technology.

A 4-cylinder that feels like a 6. Frontier® also offers a 2.5-L 4-cylinder that pumps out 152 horsepower and 171 lb-ft of torque, and features a compact balancer system to deliver the smoothness of a V6.

Gear up. You can harness the 4-cylinder's power through a standard 5-speed automatic transmission. The V6 is available with either a 6-speed manual³ or 5-speed automatic transmission.

¹Ward's Light Vehicle Market Segmentation. 2016 Frontier* vs. 2015/2016 Small Pickup Clas 4x2 models with V6. 7-pin connector trailer wire harness and tow hitch receiver required. See Guide and Owner's Manual for proper use. 3PRO-4X® King Cab® models only only. Cargo shown for display purposes only. Cargo and load capacity limited by w Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the rod and stability of the vehicle. Bilstein® is a registered trademark of ThyssenKrupp Bilst

TREAT 'EM LIKE PEBBLES.

The ultimate off-road Frontier® the PRO-4X® Exhibit championship form with unrivaled gear, including Bilstein® off-road performance shocks, an electronic locking rear differential, 4-wheel Active Brake Limited Slip (ABLS), skid plates and 265/75R16 mud- and snow-rated all-terrain tires. Add in unique 16" 6-spoke alloy wheels, halogen fog lights and an exclusive interior, and you've got a winning combination, inside and out.

Hill start assist. When starting on steep hills from a stop, hill start assist will help keep you from rolling backwards. It holds brake pressure for a few seconds, allowing you enough time to switch from the brake pedal to the accelerator.4

Hill descent control. When driving down a steep grade in 4WD, hill descent control can help. Just push the button and ease your foot from the accelerator, and this system automatically maintains speed and brake pressure to help provide a controlled descent.4

Electronic locking rear differential. When 4x4 mode just isn't enough, push the button to activate the electronic locking rear differential. This ultimate off-road feature delivers equal power to both rear wheels to boost traction and help keep your truck moving forward. When engaged, it works in conjunction with the 4-wheel Active Brake Limited Slip (ABLS). So while the locking rear differential keeps the rear wheels powered to move you ahead, ABLS helps give you the traction you need up front to help maintain steering control.

Nissan Frontier® SV V6 King Cab® shown in Brilliant Silver with optional equipment.

NISSAN KNOWS THAT FOUR WALLS ARE STRONGER THAN THREE.

That's why Frontier® features a full-length, fully boxed ladder frame instead of the 3-sided, open C-shape rails found on some other trucks. The frame is built with super-high-tensile-strength steel in strategic areas for improved structural rigidity. This rugged material is stronger than conventional steel, for increased torsional stiffness that ultimately delivers enhanced performance, on- and off-road. And it's the perfect foundation to build upon with our advanced technology.

- Overslung rigid leaf-spring rear suspension
- **3** 4-wheel vented disc brakes with Anti-lock Braking System (ABS)
- Available heavy-duty Dana® rear axle
- Steel double-wishbone front suspension

Anti-lock Braking System (ABS). Rapidly pumps the brakes during hard braking to help keep your wheels from locking up, thus helping you to steer around an obstacle.

Electronic Brake force Distribution (EBD). Senses additional weight, whether it's a full cargo bed or a full tank of gas, and sends extra force to the rear brakes.

Brake Override Technology. On every Frontier,[®] it's designed to help slow down your vehicle and bring it to a safe stop in an emergency. It works by overriding accelerator input and reducing engine power when the accelerator and brake pedals are applied simultaneously.

Vehicle Dynamic Control (VDC).¹ Also known as electronic stability control, VDC monitors driver inputs and vehicle motion and helps compensate for oversteer or understeer to help keep you on your intended path.

Active Brake Limited Slip (ABLS). To help keep your wheels from spinning, Frontier® offers ABLS. This system senses when a wheel begins to slip, then automatically brakes the slipping wheel and sends additional power to the wheel (or wheels) with the best traction.

NISSAN UTILI-TRACK® SYSTEM

INNOVATION THAT'S GOT A GRIP.

Wouldn't it be cool if you could put the submission hold on cargo? The available Utili-track® Channel System on Frontier® gives you choices few other trucks can match. Just about any type of cargo you can think of, this available system is fully equipped to help keep it secured tightly. Five channels, four cleats and a lot of thought about how people really use their trucks have created a simple, rugged system that offers near-infinite possibilities.

4 CLEATS

Frontier®'s four heavy-duty forged aluminum cleats easily slide in the channels for unmatched flexibility to tie things down – and the strength to hold them.

Unmatched versatility comes in the form of five channels – including two channels in the floor, a feature few competitors can match. And since you can lock the cleat anywhere along the rail, Frontier® makes sure you find the best position to secure whatever you bring along.

SPRAY-ON BEDLINER

Adding to the incredible versatility of the bed, the available spray-on bedliner is applied at the factory – so you know it's done right. Fade- and weather-resistant, it's a rugged, non-skid surface that adheres directly to the bed to help prevent rusting.

LOADS OF ACCESSORIES

There's also a full line of accessories to help you get even more out of Utili-track, including a Sliding Tool Box, a Sliding Bed Divider and a Sliding Bed Extender.

¹VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. ²Tool Box Tray shown in photo is sold separately. See your Nissan dealer for more information. Dana® is a registered trademark of Dana Corporation. Some components have been chrome-plated or painted for display purposes only.

Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.

FRONTIER® CREW CAB.

Nissan Frontier® SL Crew Cab shown in Steel Leather.

Space or comfort? Why not both? Forward-hinged doors make for easy entry, while an available 60/40 split rear bench allows seating for five and easily folds down to create more space. Or you can flip up the rear seat cushions for more storage room. There's also an under-seat storage tray that's removable for even greater flexibility.

FLIPS UP

FRONTIER® KING CAB®

Smart design means rear doors that give your passengers easy access to the cabin. And with no B-pillars, you also get a huge opening for larger-than-life items. The two rear seats flip up and out of the way to reveal a wide open space for cargo.

Safety. First and foremost. In Frontier, making your protection our priority starts with six standard airbags, including seat-mounted side-impact supplemental airbags and roof-mounted curtain side-impact supplemental airbags. The advanced front seat belts on every Frontier feature pre-tensioners that automatically help tighten the belts when the front airbags deploy. And if your body puts too much force on the belt, load limiters give a bit. During a rear-end impact, front-seat Active Head Restraints move up and toward you to meet your head part of the way, helping close the gap and reducing the chance of whiplash.

'Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. And please see your King Cab® Owner's Manual for specific information about the safest way to secure a child restraint in a Frontier® King Cab®. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. Inflated airbags shown for illustration purposes only, actual coverage area may differ. Airbags deflate after deployment.

CREATURE COMFORTS, ON THE GO.

Comfort? Entertainment? Cup holders? Check, check and check. Whether you're on the job or on the go, Frontier® gives you everything you need to make your space, well, yours. A great-looking interior plus an available leather-wrapped steering wheel with controls to operate the cruise control and audio - all the better, so you can crank up the available Rockford Fosgate®powered audio system! Available Dual Zone Automatic Temperature Control (ATC), so you and your passenger can set your own climates. And with the available Nissan Navigation System with 147 mm (5.8") touch-screen display, you can plan your next adventure without ever leaving the driver's seat.2 If only everything were so convenient.

What if you could see objects behind you when parking? The available RearView Monitor³ automatically activates whenever you're in Reverse, making it ideal for lining up your approach to a trailer. Now that's handy.

The standard Bluetooth® Hands-Free Phone Bluetooth System lets you make and take calls with your hands on the wheel and listen to calls through the audio system's speakers.5
