The 2016 Nissan Rogue.[®] Slide into gear and explore a life of **POSSIBILITIES.**

Nissan Rogue[®] SL Premium shown in Pearl White.

Create some best-in-class envy. Go ahead and demand more. Rogue® delivers, with best-in-class front head room and the supreme comfort of fatigue-reducing zero-gravity front seats.¹ There's a 2nd row that slides and reclines,^{2,3} so you can adjust for maximum leg room, more cargo space, or anywhere in between. And with tasteful touches like standard LED interior lighting, available Power Panoramic Moonroof and double-stitched leather-appointed seats, this is one natural, relaxed, and decidedly upscale environment.

¹Based on Global Automakers of Canada (GAC) segmentation. MY16 Rogue (without moonroof) vs. 2015/2016 compact SUV vehicles (without moonroof) sourced from Autodata on October 15, 2015 ²Slide forward function should not be performed with the Child Restraint System occupied. ³Passengers should not ride in the reclined position while the vehicle is in motion.

YOU'VE GOT AN ALL-ACCESS PASS.

Power Liftgate and Nearly 80° Wide Opening Rear Doors. Whether it's kid seats or kayaks, Rogue® gives you easy access with rear doors that swing out nearly 80°, and an available power liftgate that opens by a tap of a liftgate button, your Nissan Intelligent Key®, or a switch located by the driver.

U.S. model shown.

EZ Flex® Seating System. This 2nd row is truly accommodating, thanks to Rogue's EZ Flex® Seating System.¹ It slides forward for easy access and adjusts to give you a little more cargo space, more leg room or anywhere in between.² The seats also recline, so you can be exceptionally comfortable.³

Available 3rd Row. Perfect when you need to transport the team or bring extra friends along. Rogue's 50/50 split folding 3rd-row seat gives you added flexibility carrying passengers and their gear, and folds down to make a flat cargo floor for maximum carrying space.

¹Slide forward function should not be performed with the Child Restraint System occupied. ²Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. ³Passengers should not ride in the reclined position while the vehicle is in motion. ⁴Based on Global Automakers of Canada (GAC) segmentation. U.S. model shown.

KEEP AN OPEN HATCH AND AN OPEN MIND.

Room for craft and crew. With best-in-class cargo space⁴ and room for an object up to eight feet long, Rogue® gives you possibilities you never knew you had. And with a clever folding rear seat pass-through, there's plenty of room to bring friends along.²

1,982 LITRES
(70.0 CU. FT.)

You, a passenger and lots of cargo.²

1,112 LITRES
(39.3 CU. FT.)

Five of you and your gear.²

DIVIDE-N-HIDE®

Single-handedly reinventing capability, the Divide-N-Hide® Cargo System lets you adapt in a snap.² An adjustable set of shelves and dividers gives you a variety of configurations, and it's so easy, you can do it with one hand.²

Under wraps. Make a "box" that keeps valuables out of sight and creates a shelf on top.²

The layered look. Create an open space for storage underneath, and a handy shelf to keep other items separate and within easy reach.²

Secret spot. A long, flat floor for big items, with under-floor storage for things you want to hide.²

The lowdown. Lower your floor for added height to fit those tall items.²

Cargo area interior colours not exactly as shown.

Chill out while you warm your buns. Inspired design, available Bose® audio system and double-stitched leather – Rogue®'s a nice place to be. Add in details like available Quick Comfort® heated front seats that focus on key areas to warm you up as soon as possible, and you'll find it's toasty too. There's even available Dual Zone Automatic Temperature Control (ATC) and a power passenger seat so your co-pilot can have things just the way they like it.

Advanced Drive-Assist® Display. From trip computer to turn-by-turn directions, the Advanced Drive-Assist® Display serves up info right in front of you – helping to minimize time looking away.^{1,2,3}

NissanConnect^{SM1}

YOUR WORLD, AT YOUR FINGERTIPS.

With NissanConnectSM with Mobile Apps, your Rogue[®] becomes your smartphone's best friend. Which means no more separation anxiety for you. Because now, your own hand-picked music, latest tweets, TripAdvisor[®] tips, Facebook[®] events, and more all come along for the ride, working seamlessly together through your smartphone and Rogue[®]'s available 178 mm (7.0") colour touch-screen.¹

Your Nissan Rogue[®] also keeps you in the loop with the available Nissan Navigation System (featuring voice recognition);² hands-free text messaging;³ Bluetooth[®] hands-free calling and streaming audio;⁴ plus an iPod[®]/USB input.⁵

MEET YOUR ENTOURAGE.

NissanConnectSM Services powered by SiriusXM[®]. Let our people look after you and your people. With available NissanConnectSM Services, you have a selection of plans that give you additional peace of mind, along with added convenience and comfort.¹

EMERGENCY PREPAREDNESS

Watches out for you with features, including automatic collision notification and emergency calling.

REMOTE ACCESS

Can't find your vehicle in the parking lot? Use your computer or smartphone to flash the lights and/or honk the horn. Remote lock/unlock gives you easy access - even without a key.¹

CUSTOMIZABLE ALERTS

Keeps you in the know about your vehicle's location, including Valet Boundary, speed, and even curfew alerts.

CONCIERGE SERVICES

Traveling? You've got help with features, including Journey Planner and Destination Download.

¹Driving is serious business. Only use NissanConnectSM Services powered by SiriusXM[®] and NissanConnectSM Mobile Apps when safe to do so. NissanConnectSM Services and Mobile Apps availability is dependent on vehicle model, trim level, packaging, and/or options. See Nissan.ca/NissanConnect for complete availability details. Late availability for some features. Compatible smartphone required to operate NissanConnectSM Mobile Apps. NissanConnectSM Services, including automatic crash notification and SOS, are dependent upon the telematics device being in operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data, and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach NissanConnectSM Customer Care or receive support. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. You are responsible for using Remote Horn feature in accordance with any laws, rules or ordinances in effect in your vehicle's location. Cellular network not available in all areas and/or at all times. Cellular technology is evolving, and changes to cellular networks provided by independent companies are not within Nissan's or SXM CVS Canada's control. Neither Nissan nor SXM CVS Canada are responsible for associated costs that may be required for continued operation due to cellular network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Should cellular provider terminate/restrict service, service may be terminated without notice and with no liability to Nissan, SXM CVS Canada and/or their respective agents or affiliates. Certain services require a PIN for activation. Enrollment and Subscription Agreement is required to receive full suite of NissanConnectSM Services powered by SiriusXM[®] six (6) month trial period. Trial periods begin on your date of vehicle purchase or lease of a new Nissan; subsequently the respective paid subscription is at the then current rate to continue to receive respective services. Text rates and/or data usage may apply. See Nissan.ca/NissanConnect for details. ²Never program while driving. MAKING EVERY PART OF YOUR DRIVE BEAUTIFUL.

What if you got excellent fuel economy in a roomy, comfortable crossover that's lots of fun to drive? We got there by developing everything from exterior aerodynamics that whisper through the wind, to an advanced 2.5-litre, 4-cylinder engine, to a virtually gearless Xtronic CVT[®] transmission that maximizes efficiency and performance. Best of all, Rogue[®] is just one of a family of vehicles, reflecting Nissan's commitment to developing more environmentally friendly transportation for all of us.

7.1 L/100 km (40 MPG), so you can breeze past the pump with ease¹

4 Low rolling resistance tires that use less energy to roll, so you use less fuel

.33 Drag coefficient, lets you slip quietly and efficiently through the air
CD

Eco Mode. Saving made simple. Push the dash-mounted button, and Rogue[®]'s Eco Mode automatically adjusts to help you maximize fuel economy.

WHETHER IT'S RAIN, SLEET, OR TURN OF ROAD.

Intuitive All-Wheel Drive (AWD). It's so responsive, it can adapt to changing conditions 30 times faster than the blink of an eye. Snow, rain-covered pavement or tight turn, the system automatically sends power to the wheels that need it most. Even in ideal conditions, Rogue[®]'s available AWD pays big dividends – our passionate engineers also tuned the system for responsive, agile performance. Getting a grip has never been more fun.

Confidence-inspiring Dynamic Technologies. Whether it's stop-and-go traffic, your favourite on-ramp, or even just an annoying speed bump, Rogue[®] uses advanced technology to make every drive feel more comfortable, confident and enjoyable. And that's a beautiful thing.

Active Engine Braking. As you're slowing for a corner or coming to a stop, this system uses the CVT transmission to apply engine braking. Much like shifting to a lower gear in traditional transmissions, it helps give smoother deceleration and a more confident feel when braking.

Active Trace Control. A turn for the better. This innovative technology helps improve control when you take a corner. It reads the cornering situation and, if needed, can brake each wheel individually to help you steer through the turn with confidence.

Active Ride Control. What bump? Active Ride Control smooths them out by automatically applying braking and adjusting engine torque.

NISSAN AROUND VIEW® MONITOR¹
IT'S GOT YOUR BACK.
AND THE REST OF YOU, TOO.

What if parallel parking was easier? A rearview monitor is great when backing up – but when it comes to parking, it's nice to see more than just what's behind you. That's why Rogue® offers the available Around View® Monitor.¹ Four cameras give you a virtual 360° bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.² And since all obstacles aren't stationary (shopping carts, we're talking to you), Moving Object Detection keeps an eye around your Rogue® and can warn you about moving objects detected in your vicinity.¹

¹AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicles speeds below 8 km/h. Always check surroundings before moving vehicle. ²Virtual composite 360° view. ³Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle.

RIGHT ON THE NOSE

In Drive, the display gives you both a front and overhead view, so you know just how far to pull up – without going too far.

COMPLETE THE PICTURE

Located under your driver's side mirror, this camera helps round out your virtual 360° bird's-eye view.²

SPARE YOUR WHEELS

In Drive or Reverse, you can push the camera button to switch out the overhead for a side view. A great help for seeing how close you are to the curb.

NO MORE BUMPER CARS

In Reverse, the display helps you see what's directly behind you, while the overhead view helps with shorter objects otherwise hidden below your window.³

NISSAN SAFETY SHIELD® PHILOSOPHY

SURROUND YOURSELF WITH CONFIDENCE.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

6 Standard Airbags. When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.¹

Tire Pressure Monitoring System with Easy-Fill Tire Alert. When your tire pressure is low, an icon illuminates on your dash to let you know. When filling your tires, the Easy-Fill Tire Alert gives you a friendly beep of the horn when you've reached the right pressure.^{2,3}

snug4kids® Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: an industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at Nissan.ca/en/owners

Forward Emergency Braking.

Using radar technology to keep an eye on your speed and proximity to vehicles ahead of you, the available Forward Emergency Braking gives you audible and visual display warnings to help you know when to reduce your speed, if necessary. It can also apply braking to help you avoid a collision. If a collision is unavoidable, this feature will automatically engage the brakes to help reduce speed of impact and reduce the severity of a collision.⁴

Blind Spot Warning.

If the available Blind Spot Warning system detects another vehicle in your blind spot area, an indicator appears in the driver's or front passenger's doors and on the Advanced Drive-Assist® Display. Put your turn signal on, and the indicator flashes with a warning chime to alert you.^{5,6}

Around View® Monitor with Moving Object Detection.

When the available Around View® Monitor is in use and detects moving objects near the vehicle, it gives a visual and audible alert.⁷

RearView Monitor.

When you're in Reverse, the standard RearView Monitor shows what's directly behind you and helps make backing up and parking easier.⁸

¹Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. Inflated airbags shown for illustration purposes only, actual coverage area may differ. Airbags deflate after deployment. ²TPMS is not a substitute for regular tire pressure checks. ³Vehicle must be on for Easy-Fill Tire Alert to operate. ⁴FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. ⁵Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. ⁶Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. ⁷AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 km/h. Always check surroundings and turn to look behind you before moving vehicle. ⁸Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle.
