# Athletic meets aesthetic.

Is it not sportiness that makes a Mercedes-Benz so unique? With the Mercedes-Benz Collection, we also pay tribute to this claim with fashion. Figure-accentuating cuts combined with materials that are as functional as they are beautiful exemplify pure athleticism – while exclusive details, such as the high-gloss Mercedes star or illuminating colours, exemplify unmistakable aesthetic appeal. Exclusive sports devices such as golf iron made from titanium round off the image in proper style.

“The best or nothing.” Gottlieb Daimler’s quote offers possibly the most fitting explanation for the powerful radiance of KRAMSKI PUTTER. With this approach, the brand has been able to establish itself in the golf scene and in tournament events as a standard for ultimate precision and perfection in just a few years.

## The key features:

Striking surface	Plastic/metal mixture

Putter head	Aluminium/carbide inserts
Colours	black, silver
Loft	3.25°
Lie	64-72°
Length	30-36 inch

The individual and precise adjustment of the putter to the player is a significant part of the “Mastering the Green” philosophy of the brand. It takes place in a virtual fitting in the official KRAMSKI PUTTER Online Store.

The HPP 325 MB is based on the same high-precision putter model (HPP), with which two legendary 59 rounds have already been played on par 72 courses at professional tournaments. Precision milled and colour anodised, this sporty, tuned mallet with a high-tech insert captivates in such a way that it has won great popularity amongst KRAMSKI tour players. The HPP 325 MB is available as a right or left-hand model with a specially developed precision handle. A design putter cover made from the finest leather is included.

\*Fitting also possible in the KRAMSKI PUTTING ACADEMY: [info@kramski-putter.com](mailto:info@kramski-putter.com)

## Filter categories for sunglasses

Four filter categories are used for sunglasses, based on the degree of tint. Please use the table below to decide which category best suits your needs.

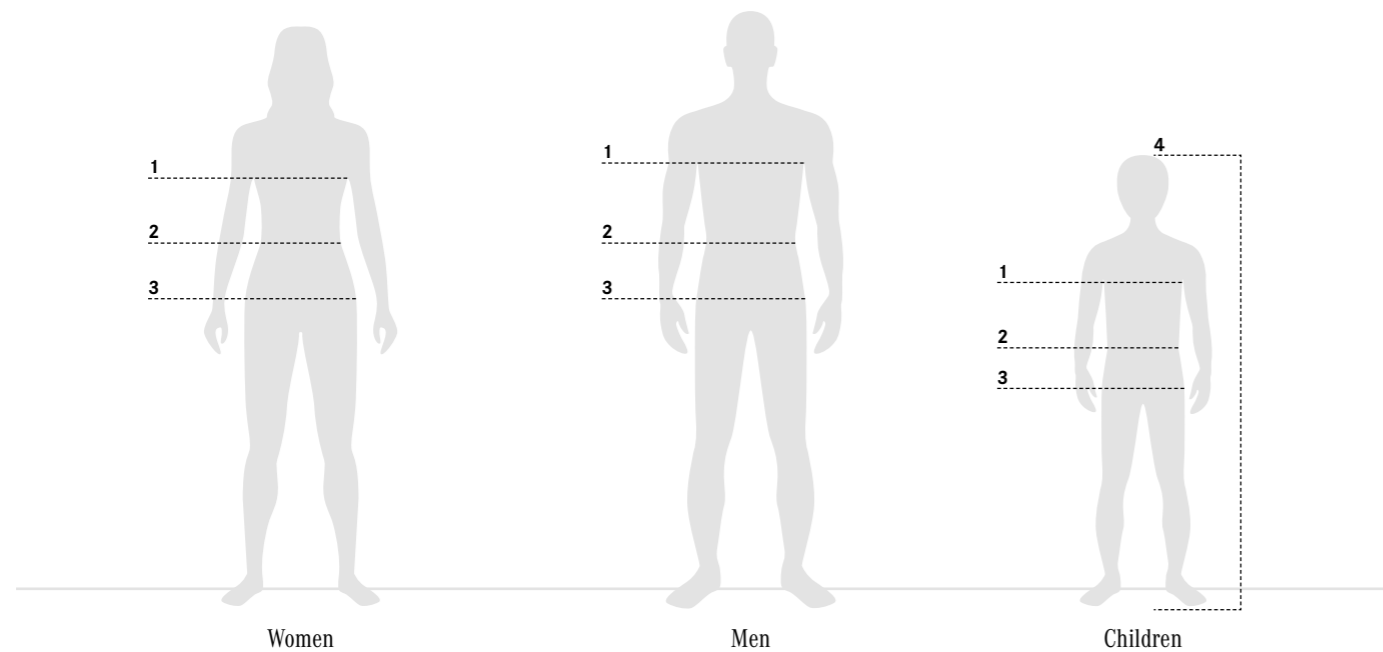

CATEGORY	Tint	Protection/light conditions
1	20-57%	Light protection for overcast days
2	57-80%	Normal protection for summer days in Central Europe
3	80-92%	High protection for expanses of water, beaches and mountains, plus Southern European countries; from 90% tint not suitable for driving!
4	92-97%	Maximum protection for high mountains and glaciers; not suitable for driving!

## Clothing sizes

The tables below are designed to help you find your perfect size. It is important to take your measurements correctly. For best results, you should be relaxed and wearing only your underwear. Ideally you should use a tape measure which you should keep close to the body. If you have someone to help you, it will be easier and more precise.

- CHEST:** keeping the tape measure horizontal, measure around the fullest part of the chest
- WAIST:** measure around the waist without drawing the tape measure too tight
- HIPS:** keeping the tape measure horizontal, measure around the fullest part of the hips
- HEIGHT** (for children's clothing): measure from the top of the head to the sole of the feet without shoes

Please note: separate tables are provided for the PUMA brand and the official MERCEDES AMG PETRONAS MOTORSPORT clothing.
